

**Name of the company**

Covestro (Slovakia) Services, s.r.o.

Brief description of the company

Make an impact globally, working locally. Why not? Become #1ofUs

We are made up of 300 passionate people dedicated to doing their best work and driving success for our business partners. Our diverse team of 16 nationalities speaking 25 languages together with global functions creates innovative, integrated business solutions across the world.

In our Global Business Center, we combine curiosity and courage to live our mission: to make the world a brighter place. To achieve that, Covestro Slovakia will implement the long-term strategy to become “Fully Circular”. These are the values we live, shaping our working environment and the way we cooperate – as colorful as we are.

We value the opinion of our colleagues. We ask them regularly what they appreciate the most within the company. It is the TEAM and people they are working with, the trustful and supportive environment, and the flexible working hours.

Job description, responsibilities and duties

Solution Architect (m/f/d) Application Integration

WHAT WE OFFER

The CFO (Chief Financial Officer) Community manages Covestro’s financial processes. It is also responsible for providing legal services and IT solutions to the company as a whole.

Our team provides the services required for the development and operation of internal and external application interfaces. These include both consulting and support for the implementation of new integration scenarios within the scope of projects as well as the monitoring and optimization of the integration techniques used within the scope of operation and support. Independent coordination of external service providers is responsible for this.

- You will be responsible for the execution of complex tasks in design and implementation of

integrations in appropriate quality

- Furthermore you will have the global responsibility as Solution Architect (m/f/d) for the internal and external integration of applications in the Covestro system landscape including Cloud Integration Services
- In addition, this position will include the architecture design and administration of the "SAP Process Orchestration" and "SAP Integration Suite" systems and surrounding "AWS Cloud Integration Services".
- This will include the delivery of services to implement, operate and support these systems as well the technical change management for them
- You will ensure that operational guidelines and compliance are adhered to and contribute to continuous improvement processes
- In addition, you will independently lead sub-projects and enthusiastically support large projects

Required education level

You have a university degree in computer science or have a comparable education

Required skills & experience

- You have proven in-depth experience in SAP Process Orchestration, SAP Integration Suite and AWS Cloud Integration Services
- You also have experience in controlling work processes and in project management
- Agile working is part of your basic attitude and you are very familiar with agile working methods and the corresponding tools
- You have excellent analytical skills as well as strong communication and presentation skills
- Business English skills complete your profile

Salary range

minimum 3500 EUR gross/month

Position suitable for non-Slovak speaker

Yes
