

**Name of the company**

Covestro Slovakia

Brief description of the company

Make an impact globally, working locally. Why not? Become #1ofUs

We are made up of 300 passionate people dedicated to doing their best work and driving success for our business partners. Our diverse team of 16 nationalities speaking 25 languages together with global functions creates innovative, integrated business solutions across the world.

In our Global Business Center, we combine curiosity and courage to live our mission: to make the world a brighter place. To achieve that, Covestro Slovakia will implement the long-term strategy to become "Fully Circular". These are the values we live, shaping our working environment and the way we cooperate – as colorful as we are.

We value the opinion of our colleagues. We ask them regularly what they appreciate the most within the company. It is the TEAM and people they are working with, the trustful and supportive environment, and also the flexible working hours.

Ready to bring your insights and imagination to Covestro?

Job description, responsibilities and duties

Process Consultant (m/f/d) Supply Chain Planning

WHAT WE OFFER

Our CFO (Chief Financial Officer) function manages the financial processes of our company and is also responsible for IT solutions and IT services for the entire Group.

The open position is in the "Application Services" department in the IT service area, which has overall responsibility for the IT solutions and applications that map Covestro's business processes. By supply chain planning, we mean the processes from sales planning through supply network to production planning. The corresponding IT solutions therefore have a direct impact on the efficiency of production and sales processes at Covestro. Only with these solutions can the complete added value be generated.

As Process Consultant (m/f/d) for the Supply Chain Planning area, you will be responsible for the following tasks:

- You will be responsible for the design and implementation of IT solutions for processes in Supply Chain Planning primarily using SAP applications as well as new technologies, such as Amazon Cloud Services.
- In this context, you will be responsible for requirements management, as well as implementation work and documentation.
- Through your responsible way of working you support a sustainable, efficient and reliable application operation
- As a team player in agile teams consisting of internal and external resources, you ensure open communication and motivate others through your determination and expertise
- By actively building knowledge of current market trends and solutions in supply chain management, you create added value for Covestro and drive continuous improvement and innovation

Required education level

Successfully completed university degree, preferably in the field of computer science or a comparable education with relevant professional experience.

Required skills & experience

WHAT YOU OFFER

- For this position you have several years of professional experience in a comparable position, especially in IT implementation projects
- Very good process knowledge and technical expertise with software solutions in the area of supply chain planning (Integrated Business Planning, SAP APO) is a prerequisite
- You are familiar with agile development methods such as SCRUM and working in a DevOps team
- You have the ability to quickly familiarize yourself with new areas of responsibility and are characterized by innovative thinking as well as a systematic and reliable way of working
- Your profile is rounded off very good written and spoken English skills

Salary range

min.2.800 EUR gross/monthly

Position suitable for non-Slovak speaker

Yes
